EDIDA *sustainable achievement* HARI KARA

Creating innovative lighting and lifestyle products using digital fabrication optimally, winning product from Bhilight is a sustainable 3D printed light made in bio-plastic sourced from renewable resources like corn. The process of 3D printing implies optimal use of resources, thereby reducing the embodied energy consumption. **Website: bhilight.com**

EDIDA *fabric* AKILA SĒSHASAYEE AND PANKAJ KEHR

Based on the motif and structure of palm leaf jain manuscripts that proliferated from the 10th to the 13th centuries, the winning signature fabric, part of the Rose Apple Tree Collection, is called the Book Of Wisdom. Made in cotton, the founders of Toile Indienne interpreted the cosmological diagrams as a contemporary distillation of the abstraction, symbolism and diagrammatic representation created for serene and contemplative spaces. **Website: toileindienne.com**

If it's not the choice of Italy's finest designers, it shouldn't be yours.

A wide range of exquisite finishes and textures from Italy.

The world turns to Italy for interior design.
Guess who the top Italian designers turn to.

TO EACH HIS OWN (ROOM)

Utopia Grand, a residence in Mumbai by Aum Architects offers a dichotomy—the interiors are as alluring as the exterior view and make you reconsider your extroversion

Craftily designed by Manish Dikshit, Sonali Pandit and Nachiket Borwake of Aum Architects is this 3,399 sq ft residence in Mumbai that offers resplendent 360 degree views with paradiscal interiors to stay in. The utilitarian space serves a family of five who belong to the spectrum of different age groups. The client's brief entailed that every member wanted their bedroom to reflect their personality. Christened Utopia Grand, the house starts with a common area, lavishly and elegantly designed to justify the all-engulfing city view. A sublime palette of muted colours, defined usage of high-quality veneer paired with accents of matte gold sets the tone right on the lower level. Breaking the space between foyer and formal seating area is a flowy breakfast table aligned with the kitchen entry. The kitchen is designed in contrast with the rest of the house by implementing an opulent palette of robust colours. Beside that is a dining space nestled in a pocket-like room, which has a different palette than the rest of the areas. The septuagenarian mother has her room on the lower floor, which is designed with soft hues and furnishings in a rather classical style with prints and motif fabrics. A Parisian boutique styled powder room completes the floor plan of the lower level. A minimal spiral staircase takes you to the upper level which doubles as a family and guest room and three bedrooms—son's, daughter's and the young couple's. The daughter had put forth requirements of a study, dresser and a swing, incorporated in the bohemian style of interiors. Crafted in an affluent yet authoritative manner, the master bedroom is a vision to behold with marble flooring, contrasting black curtains and fluted panelling. The son's bedroom is a nerf-gun and video games themed room with orange and blue in focus. Lastly, the family room is aristocratic in a sense which has a partition that converts the space into a guest bedroom. The smartly designed residence is therefore a result of sensible space planning, age-appropriate aesthetics and safe ergonomics.
