Juggling with two different tastes while designing a home is a challenge in itself. But one cannot overlook the fact that challenges bring out the best in you. And this philosophy holds true to the latest residential feat by Space Studio — a 5,400 sq ft space in Bhilwara, Rajasthan, now home to a modern industrial family. A work by the trio Abhishek Tater, Arpit Jain and Vivek Rathi, the den resonates a fusion of vibrance and contrasts, fit with pristine hues and finishes by ICA Italian Wood Finishes. The eyes witness cleverly arranged decor elements that effortlessly meld with the gleaming canvas of floors, walls and accent lighting, a reflection of the family's refined outlook. Geometry and clean lines follow suit, with functionality and art in equal focus. The interiors depict a sense of comfort and warmth with visual marvels from the nature'scape.

Continuing the thread of the design ethos where good taste shows, this den basks in a palette of greys, transitioning from contemporary to modern. The space is brought to life with an Italian marble flooring and furniture made of teakwood and brass. Reflecting the designers' discernment, the space is enhanced with hints of ICA Italian Wood Finishes. While an interplay of natural woods, exotic marble and metallics swathes the primary bedroom, another jewel are the paintings possessed by the family for generations, fused in a way that matches the colour scheme and the design vocabulary of the entire home. **Website: <https://www.icapidilite.com/>**
